The house

Wi-Fi – open and available in the whole property

Locking – there are keys left for you in all the doors that are in use, we will also provide you with a remote control for the electric gate should you wish to go out during your stay. We kindly ask our guests to personally return the remote to us before their departure, the other keys for doors in the gite can be left in the locks.

Kitchen – feel free to use all the equipment in the kitchen, everything you should need for cooking and serving is stored there apart from wine and champagne glasses which are placed in the dresser in sitting room.

To use the gas cooker and oven you first need to switch the gas cylinder, it is based under the tiled table. Please don't forget to close it again when you are finished cooking.

If you have requested breakfast, we are happy to set the table in the sitting/dining room for you at for a specific time or if you would rather help yourselves when convenient, you are welcome to, on your arrival everything will be ready for you in the kitchen for the next morning.

There are some plasters under the sink should you need them.

Staircase – as you can see it is very steep so we would like to prompt all of our guests to take great care when climbing up and down.
